

Plants and seeds

Write

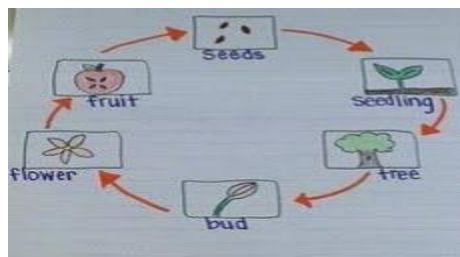

1. Short story.

Read the following short story and complete the sentences below.

Growing an apple tree

An apple a day keeps the doctor away.

**An apple tree grows from a seed that has planted.
In order for the seed to grow and turn into an
apple tree, it must be planted into the soil. You
need to water the seed every day and make sure
you keep it warm and let it receive a lot of
sunlight.**
