

Stormy nature

Write

Read about tornadoes.

Tornadoes

A tornado is an extremely dangerous form of weather. It is actually a rotating tube of air that touches the ground and a cloud at the same time. They are called twisters because they are rotating. The reason they are so dangerous is because they travel at speeds up to 300 miles per hour! Tornadoes are formed when warm air and cool air meet in the sky. These columns of violent air can pick up cars, uproot trees, and knock over buildings.

Now imagine that you are a survivor of a tornadoe and now you have to write your story. Write your story and tell people how you survived the tornadoe, how you felt during the tornadoe, the weather conditions during that tornadoe, its speed, where you were during the tornadoe ,how you stayed safe and who you were with.

I survived

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

An adverb is a word that gives more information about the verb.
